1. APPLICATION PROCESS

Stage 1 Expressions of Interest

Expressions of Interest are sought from artists (or a team of collaborating artists) to deliver a piece of Public Art. Shortlisting will be based on the information provided (see *Appendix A*) using the *Evaluation Criteria set out in Appendix B*. **Please read Appendix A carefully and comply fully with the requirements.**

The deadline for receipt of applications is **5pm on the 5th December 2014**. The selection panel will consider submissions received by this deadline and select up to three artists to go forward to Stage 2 of this process.

Stage 2 Proposal

£500 or Euro equivalent will be made available to up to three artists / teams who will be invited to present their proposals to the selection panel. The proposal must include; sketch designs, visualisations and/or a maquette as well as an explanation of the concept for the artwork, how it relates to our theme and how the artist/artist team would approach its design, fabrication and installation. Details of maintenance requirements and lifespan expectations should also form part of the presentation.

The artist/artist team must demonstrate how the work can be implemented within the allocated budget and details of the anticipated duration of the project with timescale broken down into research, production and delivery. The selection panel aims to select one artist / team to undertake the commission.

The Drogheda Civic Trust will be at the heart of this project and the selected artist/artist team must demonstrate how they will work with the community to develop a sense of ownership / pride in the piece & the environment and most importantly help create a shared space for all. Therefore the artist/artist team must also outline the approach they will take to engage and work with the local community and showcase the successful project.

Selected artists / teams must submit their presentations to Michael O'Dowd by the stipulated deadline.

2. BACKGROUND

The project seeks to develop a legacy artwork reflecting .

The Building Peace through the Arts – Re-Imaging Communities Programme themes are community cohesion, regeneration through the arts, positive relations at the local level, peace and reconciliation, connecting communities.

As a first phase of the project the group developed a local steering group to help manage the process. An Artist Nandi Jola was recruited to carry out creative community consultation with a wide range of stakeholders in the community. Nandi consulted with over 18 different groups as well as holding a 'drop in' public consultation day at a local Shopping Centre . The project was extensively advertised on Social Media and in the local Newspapers. Nandi presented a report containing her findings to the steering group including possible themes and potential site locations for the proposed artwork. The steering group agreed that 'The Far Side ' as the theme most open to artistic interpretation. Nandis report is available for consultation if required.

The preferred location for the public art is at or on St Dominics Pedestrian Bridge. This is a bridge in the heart of the town.

3. ARTIST'S BRIEF

Theme : *The Far Side*

This Theme relates to duality and contrast. The River Boyne runs through the centre of Drogheda. Over the years it has divided people. Historically Drogheda was composed of two towns one North and one South. It also divides people through its association with the 1690 Battle of the Boyne and even today residents of either side refer to their neighbours from the opposite bank of the Boyne as being from 'the far side' A phrase that is quintessentially from Drogheda and is the source of much humour. (However not to be confused with The Far Side Cartoon strip)

Through the public consultation process other divisions became clear. There were Generational differences as to what the work of art should express. In addition Drogheda has a vibrant new community from worldwide locations it also has a resident local population. Expectations and experiences were different.

The challenge is to interpret the phrase ' The far side' in the context of the above . What we would hope is that The 'Far side' could be used to unite people .

Project Specific Constraints: It is part of the artists brief to contact utilities companies and statutory agencies for advice in regard to nearby services i.e. electricity and water supply for any artist wishing to incorporate light or water as part of the art works, although this is not a pre-requisite of the brief. Conservation of wildlife and bird life and bats also needs to be considered. Any work involved in extending the services to the site will be part of the overall budget. The proposed site is at or on a pedestrian bridge and so the artist will need to ensure that materials used take pedestrian safety , weight, size and proximity to protected structures into consideration. The artist will have to demonstrate the structural feasibility of the installation and any associated health and safety considerations.

Materials: The brief does not specify the materials to be used, but the artwork is intended to be permanent and of high quality. Therefore should be made of high quality, durable materials which require minimum maintenance.

Other Considerations: The successful artist / team will be expected to provide satisfactory drawings and elevations to satisfy planning procedures. On completion of the project, the successful artist will be required to provide an engineer's certificate to satisfy the groups Steering Panel that the artwork has been designed, constructed and installed in accordance with current standards and judgments.

Dominicks Bridge (aka Dominics Bridge) : is a pedestrian bridge in the centre of Drogheda. Framed on the North Side by the Dominican Church (photo below) and on the South side by a green space (photo above) which separates the pedestrian walkway from a busy inner relief road.

4. PUBLIC ART SELECTION PANEL/STEERING GROUP

The selection panel is comprised of representation from local stakeholders and the Arts Council of Northern Ireland. This panel will be responsible for all short-listing and selection procedures as well as overall management of the project.
